

# STONE

designing kitchens, baths & interiors with natural stone

HEATHER E. ADAMS  
EARL G. ADAMS, JR.

ABOVE LEFT: A multitude of materials combine to create this exquisite bath. Changing the size and pattern of the golden tumbled marble tiles creates a fascinating tone on tone design. The height of the tile wainscoting remains the same throughout the bath, creating continuity.

ABOVE RIGHT: This symmetrical bath design features a field of creamy tumbled travertine accented by a deep, reddish-brown stone enveloping the tub, vanities, and mirrors.

LEFT: In this combination tub, shower, and steam bath, the outdoors is carried inside through the liberal use of large-scale slate tile.
